of Hope

Gold is the national color for childhood cancer and September (the 9th month) is the recognized National Childhood Cancer Awareness Month. Annie Bartosz was eyewitness to the critical need for advancement after traveling around the country with her twin brother Jack as he battled pediatric cancer. After Jack lost his battle with cancer, Annie said, "My goal is to get everyone thinking about gold in September and taking action so that we can bring an end to childhood cancer."

FRIDAY, SEPTEMBER 25, 2015

at The Grain Exchange
