

Shanna R Cox, M.D., F.A.A.P., Pediatrician, Professor, Advocate

Dr. Cox is a practicing Pediatrician in a boutique pediatric practice in Newport Beach, CA. She serves as a Volunteer Clinical Assistant Professor of Pediatrics for the University of California, Irvine School of Medicine, where she has served in a variety of roles from Attending physician conducting daily bedside hospital rounds, to mentoring medical students in the Clinical Skills Center as they prepare for their future contributions to the advancement of innovative pediatric clinical care.

Recently, Professor Cox led a course examining the U.S. Healthcare System in the Paul Merage School of Business. She completed her undergraduate work at Harvard University, her medical training at The University of Virginia, and her specialty training at U.C.I, where she graduated as Senior resident of the year. She has been published in JAMA, Southern California Physician, and contributed over thirty articles to the online parenting magazine Informed Parent.

Dr. Cox is passionate about advancing treatments, and promoting thriving for pediatric cancer patients. In addition to her experiences caring for children and families battling cancer, Dr. Cox is motivated by the experience of a childhood cancer survivor in her own family. Alongside her husband, Dr. Cox has worked with the national nonprofit; The Hope Funds for Cancer Research, supporting young investigators studying novel approaches to cancer treatment and drug development. Dr. Cox's ongoing professional and personal experiences inform, and drive her desire to advocate not only for new pediatric oncological developments, but the collaboration required to make thriving a possibility for every child, everywhere.

"G9 unites the fight against all pediatric cancers under a golden sail of hope. When it comes to kids and cancer, we're all on the same team, working to make sure children not only survive but thrive for a lifetime."

HELPING EVERY CHILD, EVERYWHERE
